## § 251.3

- (b) To ensure that you carry out G&G activities in a safe and environmentally sound manner so as to prevent harm or damage to, or waste of, any natural resources (including any mineral deposit in areas leased or not leased), any life (including fish and other aquatic life), property, or the marine, coastal, or human environment.
- (c) To inform you and third parties of your legal and contractual obligations.
- (d) To inform you and third parties of the U.S. Government's rights to access G&G data and information collected under permit in the OCS, reimbursement for submittal of data and information, and the proprietary terms of data and information submitted to, and retained by, MMS.

## § 251.3 Authority and applicability of this part.

MMS authorizes you to conduct exploration or scientific research activities under this part in accordance with the Act, the regulations in this part, orders of the Director/Regional Director, and other applicable statutes, regulations, and amendments.

- (a) This part does not apply to G&G exploration conducted by or on behalf of the lessee on a lease in the OCS. Refer to 30 CFR part 250 if you plan to conduct G&G activities related to oil, gas, or sulphur under terms of a lease.
- (b) Federal agencies are exempt from the regulations in this part.
- (c) G&G exploration or G&G scientific research related to minerals other than oil, gas, and sulphur is covered by regulations at 30 CFR part 280.

## § 251.4 Types of G&G activities that require permits or Notices.

- (a) Exploration. You must have an MMS-approved permit to conduct G&G exploration, including deep stratigraphic tests, for oil, gas, or sulphur resources. If you conduct both geological and geophysical exploration, you must have a separate permit for each.
- (b) Scientific research. You may only conduct G&G scientific research related to oil, gas, and sulphur in the OCS after you obtain an MMS-approved permit or file a Notice.

- (1) *Permit*. You must obtain a permit if the research activities you propose to conduct involve:
  - (i) Using solid or liquid explosives;
- (ii) Drilling a deep stratigraphic test;
- (iii) Developing data and information for proprietary use or sale.
- (2) Notice. Any other G&G scientific research that you conduct related to oil, gas, and sulphur in the OCS requires you to file a Notice with the Regional Director at least 30 days before you begin. If circumstances preclude a 30-day Notice, you must provide oral notification and followup in writing. You must also inform MMS in writing when you conclude your work.

## § 251.5 Applying for permits or filing Notices.

- (a) Permits. You must submit a signed original and three copies of the MMS permit application form (Form MMS–327). The form includes names of persons, type, location, purpose, and dates of activity, and environmental and other information. A nonrefundable service fee of \$1,900 must accompany your application.
- (b) Disapproval of permit application. If MMS disapproves your application for a permit, the Regional Director will state the reasons for the denial and will advise you of the changes needed to obtain approval.
- (c) Notices. You must sign and date a Notice and state:
- (1) The name(s) of the person(s) who will conduct the proposed research;
- (2) The name(s) of any other person(s) participating in the proposed research, including the sponsor;
- (3) The type of research and a brief description of how you will conduct it;
- (4) The location in the OCS, indicated on a map, plat, or chart, where you will conduct research:
- (5) The proposed dates you project for your research activity to start and end;
- (6) The name, registry number, registered owner, and port of registry of vessels used in the operation;
- (7) The earliest practicable time you expect to make the data and information resulting from your research activity available to the public;
